

TECHNOLOGY CHALLENGE GRANT

\$1,169,000
U.S. Department of Education
June 2001– June 2005

Goals

Create a mentorship system that will foster the systematic integration of technology into classrooms by training up to 150 school-based mentors who will assist each of the teachers in their schools in the integration and application of teaching and learning.

Provide resources and training to enable participants to provide effective mentoring to teachers in their schools who are working to embed technology into the teaching and learning process.

Connect mentors and teachers to community resources by matching them with corporate volunteers in partnership with TechCorps™.

Educational Partners

Edmonds School District
Mukilteo School District
Seattle School District
Shoreline School District
TechCorps™
University of Washington
Private School
(TBA via RFP process)
